Hi Sankara,

This is a follow up on your case 23975844 regarding your concern on increasing your Custom Fields size to 1000.

As a recap, since the feature you are asking to increase is edition-based, we can't increase it further in our end. If you need further assistance with this concern, please reach out to our Salesforce Sales Team at 1-800-NO-SOFTWARE since this is no longer our scope as the Feature Activation Team. Apologies because I can't be of further help with this issue. But if you have any other concerns and inquiries Salesforce related, please do let me know, I am more than happy to be of assistance.

In case I have not received any response from you, I will be following up this case again on Monday via email, between 9am to 1pm PDT. I am looking forward on hearing your response.

Thank you.
